

# Baby check app

the  
lullaby  
trust

Peace of mind in your pocket

If your baby is under six months of age, the free Baby Check app asks you 17 simple questions. It will help you decide whether your baby needs to see a health professional.

Giving you peace of mind as a parent. For every baby. For every family. Forever.

You should always seek support and advice from your midwife, health visitor, GP, NHS 111 or visit an emergency department if you are worried.

Designed for babies up to six months of age

← Temperature :

If your baby is below three months, is the temperature 38.0°C or more?

Or

If your baby is three months or older, is the temperature 39.0°C or more?

(unless your baby has been vaccinated in last 48 hours, in which case, please select "NO")

Yes

No
