

Remember that support is available to **bereaved families who are having a baby** and have previously experienced a sudden and unexpected infant death.

Please refer all of these families to your local CONI coordinator for further information:

[Empty rounded rectangular box for listing local CONI coordinators]

The parents can be offered a choice of support measures including:

- Symptom diary
- Room thermometer
- Movement (breathing) monitor
- Weight chart (A1 size)
- Paediatric healthcare passport
- HV support visits
- Baby Check app information
