

Care of the Next Infant Programme (CONI)

The Lullaby Trust knows that families who have experienced the sudden and unexpected death of a baby are often very anxious when they have another baby.

CONI is a bereavement support programme that provides emotional support to bereaved families, helping them to gain confidence during the early months of their new baby's life, allowing them to enjoy this special time.

CONI also enables families to receive information about reducing the risk factors for sudden infant death syndrome (SIDS) and advice about safer sleep for babies.

You can talk to your midwife or health visitor if you have any questions or concerns or get in touch with us by:

This leaflet was produced by The Lullaby Trust with kind support from Teddy's Wish

CONI families can have as much or as little support as they need.

With help from their local CONI coordinator, they can choose which elements of support they would like:

Increased Contact
from your health visitor/
professional.

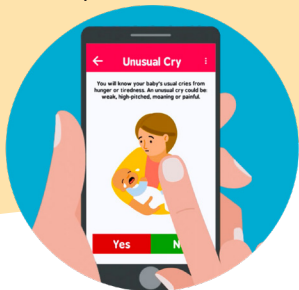

Movement Monitor
to borrow that picks up your
baby's breathing.

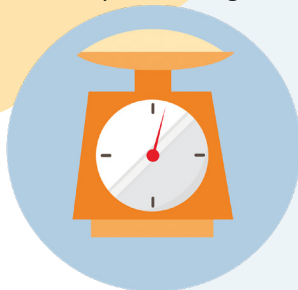

Basic Life Support
training to guide what to do if
your baby stops breathing.

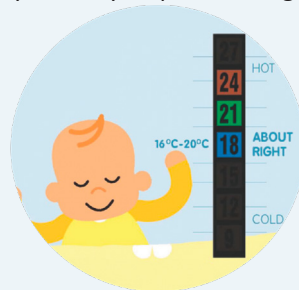

Symptom Diary
to check and record baby's
health.

Baby Check App
that helps you decide if your
baby needs medical help.

Increased Weighing
using a detailed weight chart
to monitor your baby's growth.

Room Thermometer
to help parents keep the room
where their baby sleeps at a
safe temperature.

CONI Healthcare Passport
goes inside your Red Book so
your baby can be seen quickly
if they are unwell.
